## Recommendation letter for Adros Baltija

SIA Volburg has been cooperating with Adros Baltija since 2015. During this time, 8 recruitment projects have been successfully implemented. We were selected specialists for various positions who are still working in the company.

Starting a project, Adros Baltija consultants always carefully study the profile of the applicant, delve into the specifics of the candidate and the company, work quickly, and provide candidates with a proven history of achievements. This is important for us as a customer, as it guarantees quick adaptation and efficiency of the hired employee, and the absence of surprises. All our wishes in the selection process are considered and taken into account. We know and see that Adros Baltija always provides more candidates than was stipulated in the cooperation agreement and works until the moment of hiring an employee.

We confidently recommend Adros Baltija as a reliable and efficient partner in recruitment matters. We wish you success in your work and prosperity!

Sincerely,  
Director SIA Volburg  
Viktor Kononov
